

It's Summertime

(Words and Music by Mark Wesling)

It's summertime
It's summertime
It's summertime
It's summertime!

With the birds in the air
We can run anywhere
With the stars shining bright
We can play tag through the night
We can swim everyday
Plan our day anyway
Playing baseball with our friends
Hope this summer never ends

(Chorus)

What would we do without summer?
Would we turn into ice cubes, from the cold temperature?
Would the plants (trees, fish) forget us and disappear?
I love summertime, it's my favorite time of year
(It's summertime....)

Barbecues for lunch
Cooking hot dogs, drinking punch
Playing fetch with my dog
Going fishing with the frogs
Sitting by the ocean
With my suntan lotion
Drives with Mom and Dad
Singing songs, ain't so bad

(C)

Riding on a sailboat
Wind behind us as we float
Dandelions in the air
Not a worry, not a care

(C – two times)
